### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. Claims 1-7, 9-15, 17-21, 23-27 and 29-32 are allowed.
2. The following is an examiner's statement of reasons for allowance: the examiner agrees with the applicant as to the novelty and non-obviousness of the invention (Remarks, Pp. 15-16).
3. The claims are drawn to mobile devices wirelessly accessing data over a network, such that new operating protocols for wireless devices or data storage devices may be added. The intermediate device(s) comprises several modules, including a protocol engine module to talk to the storage devices, a proxy module to talk to the wireless devices, and a common core service module and render module for selective translation from one protocol to the other.
4. By contrast, the known translation art is to always translate to an intermediate and known protocol, i.e. XML and variants thereof. The known art does not each or suggest the combination of limitations. The claims are novel and non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
